

# Flip, Go Away

Hey, I've got something to say,  
I've grown up and learned my mistakes.  
Hey, you don't know what I need  
You ain't my messiah you won't set me free

Don't let that shit get in my head  
Clear my mind fuck off go away  
My mental health depends on me  
Follow my instincts let myself be free

Hey, I've experienced the worst  
24/7 my head against the wall  
No direction, no control  
No perspective, should I leave it all?  
Before get crazy, before get insane, one way out  
I must go away

Don't let that shit get in my head  
Clear my mind fuck off go away  
My mental health depends on me  
Follow my instincts let myself be free

So...  
Go Away (x4)
