Bowlegged woman that's what I need, I don't mind

Like how she flaunt it, see that's my speed, she a dime

Thought for a moment how could this be so fine?

Body bangin, I lay the language, that walk is famous

The proper anus like she was painted

She got me tainted, I gotta brang it, this woman dangerous

None other, who's her lover, this above her

Get it from her mother, did it to her brother
