

# Fly To The Sky, Don't Forget Me

There was something you always said alone  
That we should go on a picnic like trip when you weren't sick, that you wanted to make me a delici  
How do I have to send you, who liked my hands so much because they were warm  
Rather, just fall asleep in my eyes  
\* Don't forget me, my love is true~  
I will always remember you  
How do I live after losing you I can't do that  
You are always inside my heart~  
Won't you stay, don't you leave me now I have to see your eyes again Your pureeyes  
As I sit, think back to all the times we had  
Sentimental things, they bring,  
They make me think of all you said  
Never lettin' go, you're always on my mine  
Ever since that day you went away  
Now I'm crying everyday I'm seeing visions of your love  
As you watch from heaven up above I know you're shining down I wish you werearound but you've  
I pray that we'll always be together  
You couldn't even sleep alone because you said that it was scary without me  
Your tender heart will probably be hurt  
Can I not go with you  
Watching you, who can not fall asleep from the pain,  
I pray so that you can open your eyes tomorrow morning for just one more day  
It's going to be so cold there It's going to be hard alone  
Bear with it a little Bear with it a little longer and I'll go  
\* Don't forget me, my love is true I will always remember you It's cold soalways wear warm clothes  
Don't forget me, my love is true~  
I will always remember you  
I'm really sorry for getting angry when I told you not to be in pain  
You are always inside my heart~  
Won't you stay, don't you leave me now  
I'm going to see your eyes again Your pure eyes
