Fly To The Sky, Fly To The Sky

To me who believed that I can't have everything in this world-Even though I have nothing,

Tell me I have nothing to loose again-

At one moment when I was looking all over for only you

Out of the thousands of people, I felt it

I can do it if it's with you

It's alright baby I fly to the world watch over me

Can you makin me high it's alright baby

We fly to the sky for me - it's okay

We can fly towards the sky together

Even the world love needs more light

It became a word that is overused, I want to show you all of my feelings and thought that I cant exp I'll be the light in this world full of lies and greed.

I can do it - if It's with you

Girl I know what you thinking when yoo sleeping at night, Your thinking I'm stressing but baby I'm a You lie an angel watching over me,

I once was blind but now I see, your moving brings ecstasy, Can't you see, you're my girl for eva m I probably couldn't see the near future, for that reason,

We are going to live the best way we can

I wanted to know why the dream that everyone has couldn't be accomplished, oh why??

I'm a lyrical lyricist on the mic get contagious

I be tighter than tightest, I be the badest,

Fly high way up to the sky

Let me see your hands, you know how we ride

It's alright baby, I fly to the world watch over me

Can you makin' me high

It's alright baby we fly to the sky for me-

I'm okay, I'm flying the sky with you
