

# Flying Blind, Never

Write down all the things

You'd like to say

You know I never want to make you feel that way

If we don't talk again at least we've got today

I'll keep a photograph of you.

Cause I never told you once I would have never said I could.

You know we've been

Helpless for so long

Forgive me if you think I've ever done you wrong.

You know I care or I would never write this song.

I'll never fall in love again.

Cause I never told you once I would have never said I could.

Never stall again.

Never fall again

Never crawl again

Never fall again

Never stall again

Never call amen.

I've tried I'll try I'm trying

Not to try again

I'll try to fear you once again
