

Foals, Big Big Love

See how the skulls we build
see all the towers we fill
crash down fury red
cracks in our hearts and heads

see how the skulls we build
fill all the towers we build
crash down fury red
crash down fury red

see how the skulls we build
fill all the towers we build
crash down fury red
crash down fury red

your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss

your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss

see how the skulls we build
see all the towers we fill
crash down fury red
cracks in our hearts and heads

beside you sleep i slide
a place where we can hide

oh electric shocks, no
oh electric shocks, no

oh electric shocks, no
oh electric shocks, no

oh electric shocks, no
oh electric shocks, no

oh electric shocks, no
oh electric shocks, no

see how the skulls we build
fill all the towers we build
crash down fury red
crash down fury red

your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss

your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss
that could stop it
your smile sticks a kiss

oh electric shocks, no
oh electric shocks, no

oh electric shocks, no
oh electric shocks, no

(Thanks to steffy for these lyrics)
