

Foch Tsuki, Smile

I looked in up today
And hail from sky flew
It didn't pretend me to guard
'Coz door handle fall
Despite this still
I on legs hold on
I haven't different exit
Than escape
Under great heap of questions
In which blood burns
Loam have ideals
So many alone answers
You place clumsy steps
Waiting, until glory comes alone
Ref.

Your smile fills with me
Disgust to whole world
Your smile arouses in me angre
Impertinence with you gushes
You in your words get lost
You don't arrange solid sentence
I don't know now, or I want you to eat
Or it can kill...
To kill better
I wonder today
Or to give second chance you
You can her waste
This depends from you
To make you can with her
What you oneself it pleases whatever you like
Forgive, road
But I don't hear you
I will do so alone
As you do me
I will fight with you
As long as you will not die
I will destroy your plans
I will destroy moment you then
You will feel now, you will feel how
Ref.

Your smile fills with me
Disgust to whole world
Your smile arouses in me angre
Impertinence with you gushes
You in your words get lost
You don't arrange solid sentence
I don't know now, or I want you to eat
Or it can kill...
To kill better
I gave back already all what I have
I will not be to end how brute
See only how your fear will disappear
See now how you die
Your smile fills with me
Disgust to whole world
Ref.

Your smile arouses in me angre
Impertinence with you gushes
