

Fokus / Ryan Donowho, Personal Suicide

Do you want to
What she asked when she met you
Now she's gonna away
Why would you make me hate you (??)

Yes I want to
They tell me that I need you
Now you've gonna away
I think I love you

Want to
A personal suicide with me
A personal suicide with me
You want to
A personal suicide with me
A personal suicide with me

Ryan
She tells you that she needs you
That she ran away
??

I want to
Find a way that I can see you
When she goes today (??)
I think I need you

Want to
A personal suicide with me
A personal suicide with me
You want to
A personal suicide with me
A personal suicide with me

2x
God blessed your soul
For I have told
She was the one
To give it all
Now every air??
Bounces your chest??
??
??

Want to
A personal suicide with me
A personal suicide with me
You want to
A personal suicide with me
A personal suicide with me
