

Foo Fighters, Come Back

Tie up the transmission
This one is not a test
Silent all these years
But now I'm getting you off my chest
Reeling in the moment,
I know it will never last
Tired of keepin' quiet,
Riding with all the rest

Stuck in the middle no-ones making a move
I'm looking in and I've got nothing to lose

I will comeback /7x
I will comeback for you
For you

Hide behind obsessions,
I'm trying to keep in check
Ride you for the finish
We're coming??
Reeling in the moment
I know it will never last
Rise up to the surface
High but I'm sinking fast

Stuck in the middle no-ones making a move
I'm looking in and I've got nothing to lose

I will comeback /7x
I will comeback for you

Stuck in the middle no-ones making a move
I'm looking in and I've got nothing to lose

I will comeback /15
I will comeback for you
