

# Fool's Garden, Meanwhile

You've changed the world around you  
Is it better now?  
No starving anymore  
Hey, is it better now?  
Your helpless little fingers  
They've never been as calm as now  
Your trembling is over  
It's better now

If there was a light in the dark  
I would try to wake you up  
Could I look into your eyes  
While another baby cries  
Forgive me

I see the children in the playfield  
You had to leave your place  
Your silent accusation  
They took away your face  
Your little life was over  
before it ever had begun  
Your little wings were broken  
You've never reached the sun

If there was a light in the dark  
I would try to wake you up  
Could I look into your eyes  
Would you take my alibis  
Forgive me

Ev'rybody knows it  
Repression is the way  
You're not the child next door  
You're much too far away

But there's no light in the dark  
So I won't try to wake you up  
I couldn't look into your eyes  
In this world of alibis  
Forgive me
