

# Fooled By April, Nice To See You

&quot;It was all for you and me  
now its just a memory  
would've basement  
entertainment century  
and I though you had it made  
way back in seventh grade  
days that we all wasted in the video arcade

so just kick off your shoes  
there's nothing left to do  
its so nice to see you here  
I thought that I had lost you there  
its so nice to see you  
and I'm all right

so your glory days are spent  
well mines not happened yet  
or did I lose them in a cloud of gin and cigarettes  
and I thought you had it made  
way back in eleventh grade  
days that we were wasted in the video arcade

so just kick off your shoes  
there's nothing left to do  
its so nice to see you here  
I thought that I had lost you there  
its so nice to see you  
and I'm all right

so just kick off your shoes  
there's nothing left to do  
its so nice to see you here  
I thought that I had lost you there  
its so nice to see you  
and I'm all right  
I'm all right

its so nice to see you here  
I thought that I had lost you there  
its so nice to see you and I'm all right

its so nice to see you here  
I thought that I had lost you there  
its so nice to see you and I'm all right  
I'm all right
