

# Forbidden, No Reason

Don't explain to me your philosophy  
Cause when you're cut you bleed the same as I do  
Understand there is no understanding  
Where I've been is who I am

Pain is real  
Pain does not heal  
Pain is what they make you feel  
Do you feel it?

Go - Can you stop it?  
No - Can you take it?  
Go - Don't need no reason  
No - Do you feel it?  
Go - Can you stop it?  
No - Don't need no reason  
Now

Son of a bitch lying there  
Knife in his back  
Out of my face  
The cause??

Don't need no reason  
What's done is done  
Don't need no reason  
The cause??
