

Foretaste, No Remorse

Where is your love guy?
Target is closed to be identified
What happens to you boy?
Civilians are praying for your compassion

Where are you now?
Where are my loving son?

Don't know what to do
I don't know what to say
In every place in every world it's you

What about me my love?
The way you make me emotional
What about your nation?
You pledge allegiance to a bloody end

Where are you now?
Where are my loving son?

Don't know what to do
I don't know what to say
In every place in every world it's you
