

# Fragma, Only You

I always wanted to be understood I needed some advice  
You gave me strenght you were the truth within those lies  
I never loved this way I never could but now I eralize  
Here is where I wanna be

Nobody ever tried to understand the language of my soul  
Nobody ever seemed to care

Only you can take these clouds away from me  
Only you can make this moment last  
Only you can break these walls surrounding me  
Only you - You're making me believe

I feel your presence 'till the break of dawn I'm melting in your eyes  
You give me strenght you are the truth without disguise  
Got to be near you, baby keep me warm and now I realize  
Here is where I gotta be

Nobody ever tried to understand the language of my soul  
Nobody ever seemed to care

Only you can take these clouds away from me  
Only you can make this moment last  
Only you can break these walls surrounding me  
Only you - You're making me believe  
Only you...
