

# Frameshift, Walking Through Genetic Space

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand

Think, open your mind a little more  
Breathe, open your eyes and look around  
Feel that you are a part of something else  
Come

Now we travel through both time and space  
See the beauty this world has made  
View the stages one by one  
Explore the change, don't be afraid

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand

Hear what the row of voices has to say  
Speak, ask them questions on your way

Now we travel through both time and space  
See the beauty this world has made  
View the stages one by one  
Explore the change, don't be afraid

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand

Walk, walk with me  
And see through my eyes  
Try to keep up  
And you will understand
