Frank Black And The Catholics, Whispering Wee

I went climbing up a weedy hill Just to see what I could see There far below the Hindu shrine where I go from time to time

And up at the top I met dead Andy I'm not sure how he got killed But nailed to a tree is a photograph, yeah I always tip my hat

Oh whispering weeds Oh whispering weeds Oh whispering weeds What are we talking about today? And what's that you say?

Oh whispering weeds Oh whispering weeds Oh whispering weeds What are we talking about today? And what's that you say?

Up in the flats of Leo Carillo Is a place where I can sleep A great big rock where I did dream a Happy stone age dream

And the darkness around me started to creep And I knew that I had to go 'Cause night is the hour of the mountain lion who Sent me back home crying

Oh whispering weeds Oh whispering weeds Oh whispering weeds What are we talking about today? And what's that you say?

Oh whispering weeds Oh whispering weeds Oh whispering weeds What are we talking about today? And what's that you say?
