

# Frank Duval, And One Day

No love  
no word  
no future  
a child from the street  
a child from the street  
And one day she decided a fight  
and one day she decided to win  
she decided to win

She's called Angel Face  
She looks at you  
with great expressive eyes  
Angel Face but she is cold as ice

And one day she decided a fight  
she never get love  
And one day she decided to win-  
she decided o win

She's called Angel Face  
she needs to be  
the number one in in life

Angel Face  
life's a place to fight

And one day she decided to fight  
and one day she decided to win

She was a child from the street  
and she seemed to be lost  
life's a place to fight  
and she learned to survive

And one day she decided to fight  
and one day she decided to win  
but deep inside she cries for love  
love

And one day...
