

# Frank Sinatra, I Could Make You Care

I could make you care if only you'd let me,  
I could make you care, you'd never forget me,  
I can't resist, I'd be a fool to try,  
I know if once we kissed, I could kiss my heart goodbye.  
I knew this was love the moment I found you,  
So I planned my life, it's built all around you,  
Give me this chance, darling if you only would,  
I could make you care, I know I could.
