

Frank Sinatra, I Could Make You Care

I could make you care if only you'd let me,
I could make you care, you'd never forget me,
I can't resist, I'd be a fool to try,
I know if once we kissed, I could kiss my heart goodbye.
I knew this was love the moment I found you,
So I planned my life, it's built all around you,
Give me this chance, darling if you only would,
I could make you care, I know I could.
