

Frank Sinatra, What Makes The Sunset

What makes the sunset?

What makes the moonrise?

What makes the tide remember to hide and why does it soon rise?

What makes a star fall?

Where does it fall to?

Why does its flight make us stop in the night and wish as we all do?

And what holds a cloud together?

What makes the sky so blue?

What makes the sunset?

What makes the moonrise?

Is it my love for you?

And what holds a cloud together?

And what makes the sky so blue?

What makes the sunset?

What makes the moonrise?

Is it my love for you?
