

Frankenstein Drag Queens From Planet 13, Oogie

It's Devil's Night at the shock hop
The fiends crawl out from under their rock
The smell of death is in the air now baby
So suck it up and do the... oogie boogie baby
Baby

Just grab your partner punch them in the
Face
Pick up their teeth and put them back in place
Violence is always necessary baby
So shut your mouth and do the... oogie boogie
Baby baby

Oogie, boogie baby baby... ah yeah

Keep eye contact with your enemy
Make it as miserable as it can be
Caress your partner violently now baby
Just snap their neck and do the... oogie boogie
Baby baby

Just roll your eyes in the back of your head
Stumble around like the living dead
But most important is to make it sick
Get on the floor and do it, do it, do it
