

# Frankenstein Drag Queens From Planet 13, Planet

I crash my ship into the sea  
Oh my God, where could I be  
I swim to shore, what do I see  
A bunch of fucking monkeys  
Coming after me

Well I know I won't  
Make it home by tomorrow  
And I refuse to die on  
This planet of horrors

I know that there's no escape  
Here on this planet of the apes  
Get your paws off me  
You damn dirty ape  
Here on this planet of the apes

They take my pride and dignity  
And not mention, my voice from me  
But they don't realize until I say  
Get your paws off me you damn dirty ape
