

# Franklin Daniel, Those Hazy Days

There's so much love within my heart  
And it's calling out to you  
It bears the pain that I'm going through  
Help me stop the pain And make it go away  
We'll start again on this sacred day  
Tell me you love me, dear  
And set this heart at ease  
Don't let it shed a tear  
Just say you love me, please  
The birds would not sing their song  
And the willow would surely weep  
The days would be very long  
And at night I would not sleep  
Darling I love you so I just wanna let you know  
Oh baby I'm on my way Reminiscing those hazy days  
The thought of being without you dear  
Would be more than I could bear  
My heart will die from losing a love so rare  
So, let the birds sing their song from the heavens up above  
Together, we belong I could die without your love  
If I ever lose your love And you leave me all alone  
The stars won't shine above And this house would not be a home  
Darling I love you so I just wanna let you know  
Oh baby I'm on my way Reminiscing those hazy days
