Fred Durst, Take A Look Around

All the teachin' in da world today
All the little girls fillin' up da world today
When the good comes to bad, the bad comes to good
But I'm a live my life like i should
Now da critics wanna hit it
This hit? How we did it, just because they don't get it
But I'll stay fitted, new era commited
Now this red cap gets a rap from these critics

But do we always gotta cry
Do we always gotta live inside a lie
Life's just a blast cuz its movin' really fast
So ya better stay on top or life'll kick you in the ass
Follow me into a solo
Remember that, kid, so whatcha wanna do
And where ya gonna run when your stari'n down the cable of my mic
Pointed at yo grill like a gun
Limp Bizkit is rockin' the set
It's like russian roulette when you're placin' your bet
So don't be upset when you're broke and you're done
Cuz I'm a be the one till I jet

I know why you wanna hate me
Cuz hate is all the world has even seen lately
And now you wanna hate me
Cuz hate is all the world has even seen lately

Does anybody really know the secret
Or the combination for this life and where they keep it
It's kinda sad when you don't know the meaning
But everything happens for a reason
I don't even know what i should say
Cuz I'm an idiot, a loser
A microphone abuser
I analyze every second I exist
Beatin' up my mind every second with my fist

And everybody wanna run
Everybody wanna hide from da gun
You can dig a rat through this life if you want
But you can't dig the edge off a knife (no sir)
And now you want your money back
But you're denied, cuz your brain's fried from the sack

And there aint nothin' i could do
Cuz life is a lesson, you'll learn it when you're through

I know why you wanna hate me
Cuz hate is all the world has even seen lately
And now you wanna hate me
Cuz hate is all the world has even seen lately

Now... I... know... why (now I know why you wanna hate me)

I know why you wanna hate me
Cuz hate is all the world has even seen lately
And now you wanna hate me
Cuz hate is all the world has even seen lately
