

# Freddie Jackson, Just Like The First Time

It's been so long for us  
We've learned to love and trust  
Through thick and thin this love will never end  
My heart belongs to you  
Seems like, just yesterday  
We fell in love this way  
They say in life that everything must change  
But your love still remains

You love me just like the first time  
And you hold me just like the first time  
And it will always be the first time  
For us

My heart still burns for you  
And your love it feels brand new  
Everyday I want you even more  
Than I did the day before  
Fire burns so bright  
And I love when you're holdin' me tight  
Through thick and thin this love will never end  
My heart belongs to you

You love me just like the first time  
And you hold me just like the first time  
And it will always be the first time  
For us

Oooooooooooooo yea  
And everything's all right with you by my side  
And I want you and I need you to be there  
Until the morning light  
I will hold you...

You love me just like the first time  
And you hold me just like the first time  
And it will always be the first time  
For us
