

# Free, Fire And Water

(Fraser / Rodgers)

Every single day I got a heartache coming my way  
I don't wanna say goodbye baby  
But look at the tears in my eyes  
I don't wanna say goodbye mama  
But look at the way you made me cry  
Every way that's nice you show  
You've got a heart that's made of ice  
And I know

Fire and water  
Must have made you there daughter  
You've got what it takes  
To make a poor man's heart break  
A poor man's heart break

Lover you turn me on  
But quick as a flash your love is gone  
Baby I'm gonna leave you now  
But I'm gonna try and make you grieve somehow

Fire and water  
Must have made you there daughter  
You've got what it takes  
To make a poor man's heart break  
A poor man's heart break  
And my heart is breaking...

I don't wanna say goodbye baby  
But look at the tears you made me cry  
Every way that's nice you show  
You've got a heart that's made of ice  
And I know

Fire and water  
Must have made you there daughter  
You've got what it takes  
To make a poor man's heart break  
Fire fire and water  
Must have made you there daughter  
You've got what it takes  
To make a poor man's heart break
