

Free For Fever, Shot I'm Down

Sexuality brings me back to reality

Why those strangers are yellin' me

Male brutality show me how mean this world can be

Throwing the people's dignity down on the ground

Ain't somebody help me

There's so much darkness in my mind

Ain't somebody love me around

Shot I'm down

Shot I'm down

I'm just a human being, but ready to pay for all their sins

Why those strangers are killin' me

Vulturicity now is the only thing I see

On the edge of insanity, they push me down!

Ain't somebody help me

There's so much darkness in my mind

Ain't somebody love me around

Shot I'm down

Shot I'm down

Institutions shouldn't kill a man for another

Bloody notion

Institutions struggle of a mother no matter

Bloody nation

Shot I'm down

Shot I'm down
