

# Freedom Call, Flying High

When the moon is rising  
With a silver shining light  
Waking up the angels  
of the night

And they turn the key  
to heaven  
Open up the gates to life  
Teach me right from wrong

Enlight me, take me,  
Lifes last eternally  
Far beyond the open sky

Flying high, on wings of eternity  
See their shine through  
the eyes of the world  
Flying high, away from reality  
See their shine through  
the eyes of the world

I'm drowning in illusions  
Every day and every night  
Dancing with the demons of my life

Mankind endangered  
On a path of no return  
World has gone astray

Enlight me, carry me,  
Lifes last eternally  
Take me to the universe

Flying high, on wings of eternity  
See their shine through  
the eyes of the world  
Flying high, away from reality  
See their shine through  
the eyes of the world

Time has come for my glory ride  
A heavenly kingdom divine

Flying high

Flying high, on wings of eternity  
See their shine through  
the eyes of the world  
Flying high, away from reality  
See their shine through  
the eyes of the world
