## Freedom Call, Journey Into Wonderland

As a child you were born, safe from despair A guardian angel will lead you to care Return to the light, the innocent world Salvation is near, for Freedom we call

As a trooper you fight
As a hero you'll die
For an army for Freedom,
Courageous in mind
When forces of evil
In darkness collide
Give us hope, give us the pride

Bring us back to the light Where the spirit is high It's our journey into wonderland Over and over again

We'll never stop we all run
Far away, not alone
To the place where the eagles fly
On wings we're riding high
Until the time will come
Anywhere, anyone
Where the rays of eternal life
Are shining to the sun

See the smile of the devil The grimace of hell His finger of evil is leading the spell Hear the voice of an angel He's calling for you Away from the darkness, it's blazing in your soul

Where the spirit is high For ever and ever again

We'll never stop we all run
Far away, not alone
To the place where the eagles fly
On wings we're riding high
Until the time will come
Anywhere, anyone
Where the rays of eternal life
Are shining to the sun

Bring us back to the light any time Where the spirit is high, so divine It's our journey into wonderland For ever and ever again

We'll never stop we all run
Far away, not alone
To the place where the eagles fly
On wings we're riding high
Until the time will come
Anywhere, anyone
Where the rays of eternal life
Are shining to the sun

Until the time will come Anywhere, anyone Where the rays of eternal life Are shining to the sun We'll never stop we all run
