

Freedom Call, Metal Invasion

Oh spiritus, oh sanctus
Adoramus domine
Te deum laudamus
memoriam, gloriam, gloriam

Warriors, immortal knights
We walk our way alone
Eternally, we're born to write
The sign of victory
Warriors, immortal knights
So far away from home
Eternally, we're born to fight
Forever riding free

And the day has come
Time to die
Somewhere far beyond
On the stairway to the sky
On the rainbow soaring high
We are born from the sun

In our hands we hold the future
As we live so we will die
Carry on to save mankind
Back to back we stand as one
'til the last crusade is done
We are leaving from the night

Call for vengeance, raise your steel
We are the kinghts on our glory ride
Law defenders, raise your swords
Freedom for us all

A Hail to the gods of creation
A Hail to the king of the world
A Hail to the metal invasion
A heavenly kingdom on earth

A Hail to the gods of creation
A Hail to the king of the world
A Hail to the metal invasion
A heavenly kingdom on earth

Godless odysee, endless agony
We're heading for eternal life

(2 times:)Call for vengeance, raise your steel
We are the kinghts on our glory ride
Law defenders, raise your swords
Freedom for us all

A Hail to the gods of creation
