

Freestyle, Missing You

I've been through so much pain since you left me
I just can't convince myself we're through
Things have been said and done
I guess it's over now you're gone

It's true when they say that lovers come and go
But deep in my heart I just wanna let you know
The love that we once shared is everything
That there's nothing to compare

Chorus:

'Coz I'm missing you so bad
Now that you're not by my side
I guess you could say it's me
Who's hurting so bad after all this time

After all that we've been through
Baby aren't you hurtin' too
Now that I've lost the power to pretend
I guess you could see right through me

This yearnin' I can't explain
Feeling I just cannot contain
I know someday I'll get over you
It just takes time and some getting used to
Each day I'm feeling blue
Every road leads me back to you
