

# Freiheit, Baby It's You

Eyes are full of magic  
And I feel you make me lose my mind  
Maybe here, maybe now or never  
Dreams come true  
Burning with desire  
I just wanna leave it all behind  
Let us drown in the heat of the night  
Me and you

There's love, we don't have to hide now  
With love everything's all right now  
I know and always knew

Baby it's you  
Baby it's you  
It's me and you, only you  
Baby it's you  
Baby it's you  
It's me and you, only you

Eyes are telling secrets  
There's a fever I could never hide  
Maybe here, maybe now or never  
Dreams come true  
Ooh, why don't we surrender  
To the feeling that we have inside  
Let us drown in the flow of the tide  
Me and you

There's love, we don't have to hide now  
With love everything's all right now  
I know and always knew

Baby it's you  
Baby it's you  
It's me and you, only you  
Baby it's you  
Baby it's you  
It's me and you, baby it's you

It's me and you, only you  
Baby it's you
