

Freiheit, Fatal Attraction

Lost within the danger zone
I feel a breathless kind of longing deep inside
It's too strong to hide
I'm not afraid to fall in love
But this is not a fear of flying that I know
It's pure vertigo

You got a fatal attraction
Can't escape your strange affection
Oh, again and again
I can't control my obsession
I'm a victim of my passion
Oh, again and again
Again and again

Something's got a hold on me (how I long for you)
I feel the fire on the edge of no return
And I'm willing to burn
Take away the spell on me
I run in circles moving closer to the flame
Ignoring the pain

You got a fatal attraction
Can't escape your strange affection
Oh, again and again
I can't control my obsession
I'm a victim of my passion
Oh, again and again
Again and again
Again and again
Again and again
Again and again

You got a fatal attraction
Can't escape your strange affection
Oh, again and again
I can't control my obsession
I'm a victim of my passion
Oh, again and again
Again and again
Again and again
Again and again
Again and again

You got a fatal attraction
