

Freiheit, So Good

So good, the power we had
You felt so fine, I'm feeling so bad
So good, the day it began
You took a slice of me in the end

Victims of passion they lose control
Gamble the body and lose the soul
Flashing your heart around
I know it feels so good

Time and again you just turn away
All of a sudden you make your play
Take what you want from me
You know you take so good

You're so good
The facts of life so well apply
You're so good
Let fingers do go walking
It feels alright

So good, the power we had
You felt so fine, I'm feeling so bad
So good, the day it began
You took a slice of me in the end
Take all or nothing
Don't leave part of my heart in desire and pain

We are the actors with roles to play
You do the taking, I have to pay
Take what you want from me
You know you take so good

You're so good
The facts of life so well apply
You're so good
Let fingers do go walking
It feels alright

So good, the power we had
You felt so fine, I'm feeling so bad
So good, the day it began
You took a slice of me in the end
Take all or nothing
Don't leave part of my heart in desire and pain

A chain of reactions so hard to cool
A man of excesses breaking the rules
It's in at the bottom and out the top
And once I get started it's hard to stop

So good, the power we had
You felt so fine, I'm feeling so bad
So good, the day it began
You took a slice of me in the end
Take all or nothing
Don't leave part of my heart in desire and pain

So good, the power we had
You felt so fine, I'm feeling so bad
So good, the day it began
You took a slice of me in the end
Take all or nothing
Don't leave part of my heart in desire and pain
