

# Freya, Rosie

Rosie died so suddenly  
So young and so much like me  
So... where did Rosie go?  
I did not know Rosie well  
But she woke me up to smell  
My own mortality

Goddamn this feeling  
Make it go away,  
I close my eyes  
To make it go away, make it go away, make it go away ...

One step forward and two steps back  
The circumstances in life just hit me with a smack, oh  
So where did Rosie go?  
One thing is heaven - another is the sky  
Where will I go when one day I die?  
Where will I go?

Goddamn this feeling  
Make it go away,  
I close my eyes  
To make it go away, make it go away, make it go away  
To make it go away, make it go away, make it go away  
Please make it go away, make it go away ...
