

# Friction, Led Astray

We didn't last long,  
Cause I did it, so the time it takes  
So why wrote that last song?  
Cause I have a lot of words to say

This is a sad song,  
Cause I never have the heart to stay  
I'm walking away,  
The last thing I say,  
The music went and led me astray

And you never took me out to play  
So I let the music go and lead me astray  
Keep wanting everything on the plate

I'm walking away,  
The last thing I say  
The music went and led me astray  
Led me astray
