

Friction, Led Astray

We didn't last long,
Cause I did it, so the time it takes
So why wrote that last song?
Cause I have a lot of words to say

This is a sad song,
Cause I never have the heart to stay
I'm walking away,
The last thing I say,
The music went and led me astray

And you never took me out to play
So I let the music go and lead me astray
Keep wanting everything on the plate

I'm walking away,
The last thing I say
The music went and led me astray
Led me astray
