

# From First To Last, Emily (Album Version)

Smiles and her laughter  
Its the only thing that I've been waiting for a time  
Regardless of our distance and our hope... grows greater  
Trapped by pretty eyes and letters for all time  
...The only thing that I've been waiting for

I hope its something worth the waiting  
Cause its the only time that I ever feel real  
Thunder storms could never stop me  
Cause there's no one in the world like emily

She's simple yet confusing  
Her sparkling eyes make me weak and my words, they tremble  
Days seem like years in this month of december  
The winter coldens me for I have yet to sleep  
And never will I give up trying because you're everything to me

I hope its something worth the waiting  
Its the only time that I ever feel real  
Thunder storms could never stop me  
Cause there's no one in the world like emily
