

Front Line Assembly, Bio-Mechanic

~~~~~  
"Animal rights ????"  
"Keeping the brain going with microshocks."  
Melted faces  
Fractured cells  
Implanted memories  
Syringe of hell

Crippled mutants  
Strapped with chains  
Tortured users  
Laughing in pain

Chorus:  
The track marks your spine, they say  
Machines are humans  
We're programmed that way  
In God we trust

Empty vastness  
You can't hear a sound  
In space they float  
Users unbound

The pulse it races  
Chest is tight  
A higher feeling  
Censored with fright

(Chorus)

(Chorus)  
"I believe in disease"  
"I believe in pain, cruelty and infidelity"

Synthetic stimulant  
Artificial plague  
Demented erosion  
Existence for a new way

(Chorus)

(Chorus)  
In God we trust  
In God we trust  
"??? and corruption"

In God we trust  
In God we trust
