Front Line Assembly, Re-Birth

A light In the universe Transmits New Codes Systematic predator Now unfolds Protectors Of the universe Eternalize by myth New genetic mutations Informs of monolith

Lifeless and fallen Bodies lie still Waiting for rebirth To strike at will / to kill

Floating in a sea of bliss Emerging mysteries The epidemic copulates Spreading the disease

Mechano-eroticism Decadent Anarchy

The final solution is execution Foreign intruder A new persecutor

A vastness of scars The earth Illusions so decayed So empty And perverse Not a sound is heard

Two ships collide in the night Smoke fills the air Lost in space In a darkened void No one seems to care
