

Frozen Crown, Forever

Down deep the oceans
Lie the ashes of ages
As in the solace
Our memories will live
Down deep the oceans
Lie the ashes of ages
As in the solace
We will forever be as one

As we have never been
So close to reach the sun
Our land is moving out of sight
We're stronger tonight
Gathering might
Above the fading lights
Again we'll rise

This moment, this moment
Will live through eternity
This moment, this moment
The brightest we've ever seen

Find in light the essence of the night
Say "forever"
Forever
Till the stars shine on our hearts
Tides won't last
Our time is dying fast
But this moment, our moment
It will shine bright on our hearts

The end is getting closer as we fight
I will forever be
As stronger as I can be
If you stay with me
Tonight we'll learn to...
