Frozen Crown, Forever

Down deep the oceans Lie the ashes of ages As in the solace Our memories will live Down deep the oceans Lie the ashes of ages As in the solace We will forever be as one

As we have never been
So close to reach the sun
Our land is moving out of sight
We're stronger tonight
Gathering might
Above the fading lights
Again we'll rise

This moment, this moment Will live through eternity This moment, this moment The brightest we've ever seen

Find in light the essence of the night Say "forever" Forever Till the stars shine on our hearts Tides won't last Our time is dying fast But this moment, our moment It will shine bright on our hearts

The end is getting closer as we fight I will forever be As stronger as I can be If you stay with me Tonight we'll learn to...
