I saw the ghost of Lena Zavaroni  
Vanilla, strawberry, knickerbocker glory  
Hans Christian Andersen plays musical statues  
To don't take it out on this world by Adam's apples  
Sprinkling hundreds of thousands on a knickerbocker glory  
I saw the ghost of Lena Zavaroni

We've got no room for technicolor  
Emeric Pressburger said to Dietrich "knickerbocker"  
Rows & rows of lightbulbs illuminated in speech bubbles  
Alternating off and on every time I hit the button  
Sprinkling hundreds of thousands on a knickerbocker glory  
I saw the ghost of Lena Zavaroni

She had never seen traffic lights, lifts or escalators  
Or layers of strawberries in the mouths of light entertainers
