

Full Blown Rose, Trapped

Verse 1:

Trapped inside these four white walls
Waiting for someone to call
Something's gonna have to give
and I don't know when
Seems it's taken far too long
I've been stuck on this same song
I've been standing on the edge
and I'm gonna fall.

Pre-Chorus:

Promise me
You won't follow me
Cause I've gone down the wrong road
and I've lost my own way back.

Chorus:

It's all my fault...I can't hide it
I've tried to run...I can't fight it
Everybody dreams...why can't I just make the team
Falling all the time before I cross the finish line.

Verse 2:

I've been blinded by the dark
Hoping for a little spark
Diving in a pool of sharks...though I
cannot swim
Trying to understand myself
All my music's on a shelf
Gathering dust as I try to search within.

Pre-Chorus:

Promise me
You won't follow me
Cause I've gone down the wrong road
and I've lost my own way back.

Chorus:

It's all my fault...I can't hide it
I've tried to run...I can't fight it
Everybody dreams...why can't I just make the team
Falling all the time before I cross the finish line.
