

# Fully Down, The Roads Between Us

Learn as if you'll live forever  
Love as if tomorrow you'll be gone  
'cause to the world  
there are bigger things  
but it always brings me back to you

I've never loved before  
We'll take our time  
Don't cry it isn't over  
I might be gone but I swear I'll never leave  
You remain and watch the seasons change

If nothing ever lasts forever  
If nothing can change  
Then everything would be the same to you  
We've never loved before
