

Funker Vogt, 4th Dimension

I am floating in the universe
Like on a silent ocean
My mind is opened wide
To understand our life

I see the secrets of mankind
Understand their destination
Everybody goes his way
Fulfills his duty in our world

I am drifting far away
To an unknown peaceful place
This is the place where I will pray
So far away in outer space

I am still moving further out
Where men's eyes never will reach
Here you will feel
Freedom peace and joy

Now I am free of my body
Need no more air to breathe
Here is the point of no return
No chance to go back
