

Funker Vogt, Pain

Each tattoo on my body a painful experience
Tells the story of the image
And a story of suffering

A lot of self-inflicted pain
Have I endured so far
It has helped me through my life
On my way to immortality

Chorus:
Pain tells me, tells me Im still alive
This very special feeling strengthens my will to survive
And reach my combat ceiling

Ive learned to embrace the pain
Each moment of my life
Its a part of myself
Its my way to deal with it
