

Fur Patrol, Andrew

You will do, what you do
Gotta go
Gotta have it
I'll just sit around, let everybody talk
And I will show, what I show
I cant help it, it's habit
I'll just sit around, let everybody talk

And if you thought I'd take your hurt away
I'm sorry
And if you thought I'd make this feeling stay
I'm Sorry
I'm so sorry

Stay where you are
You're not going, just leaving
I will sit around, let everybody talk
And they will say, what they know
They will end up believing
I will sit around, let everybody talk

And if you thought I'd take your hurt away
I'm sorry
And if you thought I'd make this feeling stay
I'm Sorry
Yeah I'm sorry

And if you thought I'd take your hurt away
I'm sorry
And if you thought I'd make this feeling stay away
Away
So Long
