

Furthest Drive Home, Don't You Worry

No one is watching no one is listening,
The sun is rising no one smiling,
The rain is pouring it comes in and comes down.
See your soul drown.

No one is watching no one is listening,
The sun is rising no one smiling,
The rain is pouring it comes in and comes down.

Up the anti, feel the wind in your hair,
Dont you worry about competition,
Up the anti, feel the wind in your hair,
Dont you worry about competition,
It comes in and comes down,

Dont you worry,

Up the anti, feel the wind in your hair.

No one is watching no one is listening,

The sun is rising soon well be smiling

The rain comes in I go down to rest my thoughts.

It takes me away to the sea of hands that feel the sky

Because no one is watching no one is listening.

Up the anti, feel the wind in your hair,

Dont you worry about competition,

Up the anti, feel the wind in your hair,

Dont you worry about competition,

It comes in and comes down,

Dont you worry,

Up the anti, feel the wind in your hair.

Up the anti, feel the wind in your hair,

Dont you worry about competition,

Ohh, it comes in and comes down,

Dont you worry,

Up the anti, feel the wind in your hair
