

Fury In The Slaughterhouse, Can't Remember

They say, these people came to take me home
But where is home and why did I have to leave at all?
Like in a snapshot I could realize
They look so pitiful but also terrorized.

I can 't remember them at all
Or if it 's summer, spring or fall

Telling me 'bout things I 've said and done
All this sounds good to me
But I can 't remember nothing at all.
The old lady with the starrey eyes
Seems to love me but I must apologize

Can 't remember her at all
Wish I had total recall

I can 't remember her at all
Feel like an angel after the fall
Memories get weaker day by day
All my life's fading to grey
Is there a price I have to pay?
